TOOLS
CETooling, started out in 1966 in Chicago as a tool \& die shop. In the late 70's we directed our energies exclusively to the manufacturing of tooling for turret, and duplicator presses. Through our use of the highest steel grades, combined with manufacturing processes and procedures developed from over 50 years of producing punches and dies, our quality and value is unbeatable!
Currently CET is supplying all Fabrication: PUNCH, BEND \& SHEAR tooling. This is done through our own manufacturing capabilities and relationships we have with other fab tool manufactures.
